

BLUESTEM ELECTRIC COOPERATIVE, INC.

1000 South Wind Drive – PO Box 5 – Wamego, KS 66547

Phone: (785) 456-2212 / (800) 558-1580

SINGLE-PHASE RATES

STANDARD *Single-Phase Service* -- *Applicable to all single-phase services.*

| | |
|--|-------------------|
| Customer Charge | \$50.00 per month |
| Demand Charge..... | \$4.50 per kW |
| Energy Charge Usage from June - September..... | \$0.11820 per kWh |
| Energy Charge Usage from October - May..... | \$0.10820 per kWh |

OPTIONAL *Single-Phase Electric Heat Service* -- *Applicable to single-phase services where the consumer permanently installs and uses electric water heating and space heating equipment as the major source of heating.*

| | |
|--|-------------------|
| Customer Charge | \$50.00 per month |
| Demand Charge..... | \$4.50 per kW |
| Energy Charge Usage from June - September..... | \$0.11000 per kWh |
| Energy Charge Usage from October - May..... | \$0.10000 per kWh |

Note:

* These rates are subject to a Power Cost Adjustment (PCA) tariff. The PCA will vary from month to month depending upon the difference between the cooperative's actual cost of the energy component in the cost of purchased wholesale power and the base cost of the energy component in the cost of purchased wholesale power. The base cost of the purchased wholesale power energy component established in these rates is \$0.08036 / kWh.

Summer rates apply to usage from June - September

Winter rates apply to usage from October - May

OPTIONAL *Single-phase Ground Source Heat Pump Service* -- *Applicable to single-phase services where the consumer permanently installs and uses an electric water heater and earth-coupled heat pump as the major source of heating.*

| | |
|--|-------------------|
| Customer Charge..... | \$50.00 per month |
| Demand Charge..... | \$4.50 per kW |
| Energy Charge Usage from June - September..... | \$0.10000 per kWh |
| Energy Charge Usage from October - May..... | \$0.09000 per kWh |

OPTIONAL *Single-Phase Time-of-Use Service* -- *Applicable to single-phase services. May benefit those consumers who can shift the majority of their electricity consumption outside of the peak period. The peak period is from 3:00 P.M. to 6:00 P.M. during the four summer months of June, July, August and September. All other times are considered the off-peak period.*

| | |
|--|-------------------|
| Customer Charge..... | \$50.00 per month |
| Demand Charge..... | \$4.50 per kW |
| Energy Charge Usage from June - September | |
| Peak period (3:00 pm to 6:00 pm)..... | \$0.40000 per kWh |
| Off-Peak period (6:00 pm to 3:00 pm)..... | \$0.07900 per kWh |
| Energy Charge Usage from October - May | \$0.07900 per kWh |

OPTIONAL *General Service Demand* -- *Applicable to single-phase services where the consumer contracts for a demand of not less than 20 kW or more than 100 kW. May benefit those customers with a high load factor.*

| | |
|----------------------|-------------------|
| Customer Charge..... | \$70.00 per month |
| Demand Charge..... | \$20.00 per kW |
| Energy Charge | \$0.08000 per kWh |

Note:

* These rates are subject to a Power Cost Adjustment (PCA) tariff. The PCA will vary from month to month depending upon the difference between the cooperative's actual cost of the energy component in the cost of purchased wholesale power and the base cost of the energy component in the cost of purchased wholesale power. The base cost of the purchased wholesale power energy component established in these rates is \$0.08036 / kWh.

Summer rates apply to usage from June - September
 Winter rates apply to usage from October - May
